## **FLU VAC RULES**

***BRC equine influenza rules are based on the British Horseracing Authority Rules (BHA formerly The Jockey Club Rules).***

### **Equine Influenza - Valid Certificates – Vaccination procedures**

*Each horse must have a valid vaccination certificate, which undeniably relates to that horse, completed, **signed and stamped** on each relevant line by a veterinary surgeon, who is not the owner of the animal.*

*It must state that the horse has received the appropriate course of injections against Equine Influenza as follows:*

**Primary Vaccination:** *Two injections, the 2<sup>nd</sup> between 21 days and 92 days after the 1<sup>st</sup>.*

**First Booster:** *An injection between 150 days and 215 days after 2<sup>nd</sup> primary injection.*

**Annual Booster** *An injection not more than 1 year after the preceding injection.*

*Only the first two injections need to have been given for the horse to compete.*

*None of the vaccinations may be given within the **preceding 7 days**, including the day of the competition or entry into competition stables.*

*Annual Boosters may be given on the same date each year, but this is not recommended.*

**Note:** Where Passports are used as the flu' vaccination record, the horse description must be verified by a vet or authorised member of a breed society.

***If the passport does not contain the full vaccination history then, to comply with rule above, the flu vaccination certificate must also accompany the pony/horse.***
